

The Essential Figure

Figure Drawing with Murray Kimber
offered through Oxygen Art Centre

The human form has long been a standard in art. The Essential Figure offers a logical approach to figure drawing based on 3 areas of emphasis:

understanding human anatomy
seeing rather than looking
moving beyond line to incorporate mass, tone and form

Instructor will use works of various artists as examples, as well as carry out our daily in studio demos. Students are encouraged to keep a sketchbook while in this course.

Tuesdays 7-10 pm
from Oct 4 - 22
\$280 + tax and \$10 models fee
